To facilitate the installation of cable enclosures along a cable route and to satisfy specific user requirements, a wide range of accessories is offered.

Accessories are designed to assist with installation, services identification, maintenance and keyhole/IP protection.

Polymer concrete pits and plastic pits may require different accessories. The table below will help guide your selection. If in doubt, [contact ACO](#).

Universal plug allows lids to meet IP rating IP4X (AS 60529).

Range of lid & access cover lifters.

Range of sintered diamond holesaws for polymer concrete pits.

NATA certified pit lifters for Type 8 & 99 polymer concrete pits.
